

Conventional Sounder

BANSHEE

Features

- ▶ Robust design
- ▶ Low current consumption
- ▶ Easy to install
- ▶ Maximum 112dB(A) at 1 metre (dependant on tone selected)
- ▶ 32 user-selectable tones

Description

The BANSHEE is an electronic conventional sounder for both internal and external use. It is easily installed with robust terminations that can accept 2.5mm cables and a push and twist bayonet-fitting base. With the choice of two types of back box the BANSHEE can be used externally as well as internally, with the weatherproof back box providing three 20mm cable entries.

The BANSHEE'S various industry-standard tones and volume levels are all user-selected using simple DIL switches on the underside of the unit.

| Specification | |
|---------------------------------|--|
| Ordering Code | BANSHEE |
| Operating Voltage | 9 - 30Vdc |
| Operating Current | 12 mA ($\pm 20\%$) |
| Operating Temperature Range | -40°C to + 70°C |
| Maximum Sound Output (at 24Vdc) | 112dB(A) at 1 metre (dependant on tone selected) |
| Maximum Humidity | 75%RH - Non Condensing (at 40°C) |
| IP Rating | IP45 (with internal back box – as standard) IP66 (with external back box – sold separately) |
