

## FLAME DETECTOR

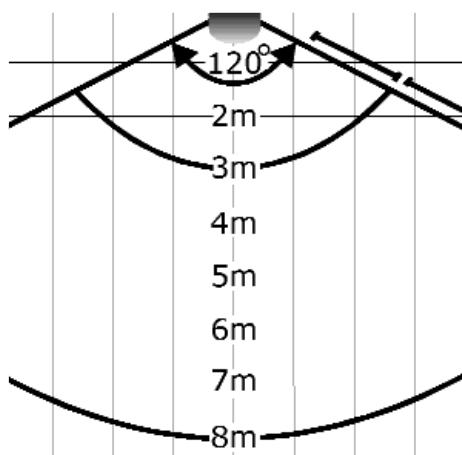

**Model HF-24 Flame Detector** detects the presence of a flame within its field of view by sensing the ultraviolet radiation emitted.

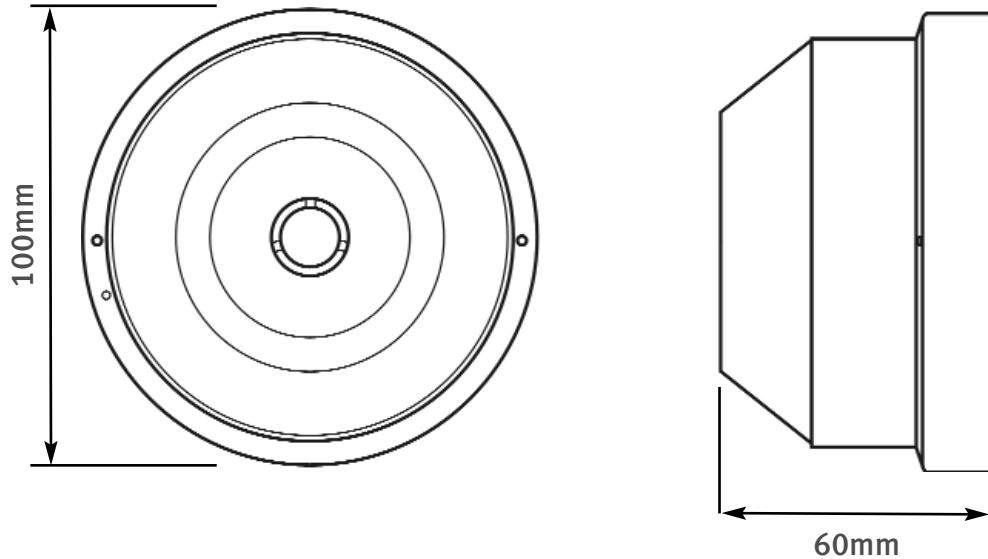

The detector has been designed for internal use and is particularly suited to installations where flame can be expected to develop initially rather than smoke due to the nature of combustible materials such as films, video and computer tapes.

- ▶ Incorporates electronic filter to minimise unwanted alarms
- ▶ High immunity against electrical noise and radio frequency interference
- ▶ Special pulsed circuit design reduces standby current
- ▶ Requires YBF-RL/4H5 base

## SPECIFICATION

Ordering code	HF-24
Operating voltage	15 - 30Vdc (Nominal rating 24Vdc)
Standby current (typ)	200µA at 24Vdc
Detection angle	120° Cone
UV sensitivity range	185 to 260nm
Current in alarm state (max)	50mA (with YBF-RL/4H5 Base)
Operating temperature range	-10°C to +50°C
Storage temperature range	-30°C to +70°C
Maximum humidity	95%RH - Non condensing (at 40°C)
Ingress Protection Rating	IP42
Colour / Case Material	Ivory White / ACS
Weight (g)	152
Compatible Base	YBF-RL/4H5
Base Height (mm)	10
